

Theme Day 2025

Living History Museum Actors and Costume Design

We are excited to invite volunteers to participate in "living history" sessions in the classroom. We are looking for enthusiastic individuals (parents, grandparents, etc) to facilitate short, 8-minute presentations where you will dress up as a current or historical change agent and lead a related classroom activity that highlights that person's story. We will provide all needed materials- a script, lesson, activity, and short video clip. We will collaborate with you to finalize the details and costume. (We are also looking for volunteers to help with costumes). This is a fun, low-stakes, and interactive experience designed to engage our students and make stories come alive.

Lego Mosaic Planning and Creating

We are thrilled to offer students in all 19 classes the opportunity to build a collaborative Lego mosaic on Theme Day. If you love Legos, this opportunity is for you! We are seeking two types of volunteers. Mosaic planning volunteers will help prep and organize the project in advance of Theme Day (attendance on Theme Day is not required). This is an awesome opportunity for those who would love to plan and organize a big Lego build. Mosaic creation volunteers will travel from class to class to help students build the Lego mosaic on Theme Day. This is the perfect role for someone great at building Lego's and keeping projects organized.
